PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of professional experience building web and mobile applications using React, JavaScript, C#, ASP.NET, REST APIs, and SQL Server. Experienced delivering production-ready solutions, integrating backend services, and collaborating across teams to support business applications. Currently developing a SaaS platform for appointment management in the beauty industry using React, TypeScript, ASP.NET Core, and SQL Server.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Java, SQL

Frontend: React, Redux, HTML5, CSS3, Responsive Design

Backend: ASP.NET, ASP.NET Core, REST APIs, MVC, Java Spring Boot

Databases: SQL Server, MySQL, Firebase

Tools: Git, GitHub, API Integration

PROFESSIONAL EXPERIENCE

Development Analyst / Full-Stack Developer

Atento El Salvador | 2023 – 2025

- Developed and maintained web and mobile applications using React, JavaScript, Redux, ASP.NET, and SQL Server.
 - Built and integrated REST APIs to support business workflows and improve application functionality.
 - Developed responsive user interfaces focused on usability and performance.
 - Collaborated with cross-functional teams to troubleshoot issues and maintain production systems.
 - Supported a mobile platform used by employees to access payroll information, certificates, medical appointments, and internal opportunities.
-

Software Development Intern

Movistar | 2022

- Contributed to the development of internal applications using Java Spring Boot and WSDL services.
 - Built an Android application for employee communication using Java and Android Studio.
 - Provided technical support and resolved software and network issues.
-

PROJECTS

Glowbook | Founder & Full-Stack Developer (2025 – Present)

React • TypeScript • ASP.NET Core • SQL Server

- Developing a SaaS platform for barbershops and beauty salons to manage appointments, customers, staff, and services.
 - Building REST APIs and backend services using ASP.NET Core and SQL Server.
 - Designing responsive interfaces and implementing authentication using React and TypeScript.
-
